# We are Imago Space.

- \_\_\_\_\_ a coworking community.
- \_\_\_\_\_ a living organism.
- \_\_\_\_\_ a second home.

We want to not only work next to each other but with each other. We are based on self-organisation and co-creation and growing an open, nurturing, psychologically safe culture in which we can feel free to express ourselves and grow together.

Our vision is to become a self-nurturing organism to support a new paradigm for human/systemic transformation.

Our mission is to become a proof of concept that we can create a system designed with Human-Centric values that can thrive, in order to inspire and influence others.
